

**ELN WP10 “DIAGNOSTICS” MEETING
MUNCHEN OCTOBER 21-22, 2011**

Organizers : Prs Marie C Béné & Gina Zini.

Hosted by MLL, Pr Torsten Haferlach

Venue : Mühchner Leukämielabor, Max Lebsche Platz 31, 81377 München

PRACTICAL INFORMATION

The meeting is open to all, on the basis of registration up to the seats limit (about 80 people), valid for both meeting days (no single day registration).

The participation of hematologists-in-training is highly welcome as both the morphology and immunophenotypic aspects of leukemia diagnosis, mandatory initial steps, will be covered.

Please note that this will be a first-come/first-serve registration and that rebuttal will start when the number of participants reaches the seat limit.

There is no registration fee, but it is mandatory to get registered to be able to attend, due to space limitations.

Looking forward to a constructive and lively meeting.

TO REGISTER
